

By fostering strong **relationships**, backed up with our 17+ years of **knowledge and experience**, leads to greater efficiency and **innovative solutions** in sheet metal fabrication.

2020 What a year so far...

Here at Wrekin Sheetmetal Ltd, we have taken what we like to call the '**Wrekin Approach**' to what has been a challenging time for many. The turn of the decade was always planned to be a BIG year for us, and by remaining focused, our goal for expansion will be complete by 28th September.

So, what can we tell you about us?

- We operate from our premises sporting 40,000 sq ft, in the heart of Telford, just off the M54.
- We offer a supporting, end-to-end service, taking initial concepts from consultation, through to assembly and delivery.
- We produce high quality and precise sheet metal fabrication solutions.
- We believe in investment and that means investment in our [machinery](#)

our [technology](#)

our [processes](#)

and most importantly, our [people](#)

The Wrekin Approach, what is it really?

Essentially, the Wrekin Approach is a combination of positivity and innovation.

Because of this mentality, our business has continued to expand and develop

as planned, despite the obstacles this year has presented.

Let us tell you more...

Our New Machinery

We have invested in a new fully automated punch and a new automatic loading fibre laser and these, in addition to our original machinery, enable us to bring you the most up to date sheet metal fabrication capabilities supported by over 17+ years of experience. Our total investment exceeds £1.5m which has had a significant positive impact on our capacity.

Increases in **Capacity**

Punch by **150%**

Laser Cutting by **150%**

Our Supply Chain

- Taking Control

This year we have also welcomed the arrival of **The Powder Coaters Ltd** to our premises. Wrekin Sheetmetal now has priority access to onsite powder coating facilities which will be up and running by 28th September.

The Powder Coaters Ltd have an industry leading powder coating plant that has been specifically designed and modified to suit the requirements of **Wrekin Sheetmetal Ltd**. The plant consists of a three-stage pre-treatment plant, modified curing oven, Nordson Colormax Fast Colour Change Booth and double-pass drying oven.

Industry 4.0

Embracing the fourth revolution of industry has been integral to the success of our development.

Industry 4.0 is the digital transformation manufacturing has been waiting for.

Our new technology has increased the efficiencies of our machine automation and the way in which we use data to develop processes that structure our production efficiently whilst maintaining quality.
